

11/4/21

## FT5DR/FT5DE Firmware Update Information

Refer to the Firmware Update Instruction Manual in each ZIP file.

The latest versions are listed below with the release date.

- MAIN Firmware Version **1.10** (11/4/21)

Currently we have two different destination versions of the FT5DR/FT5DE: USA (DST: USA/AUS), EXP (DST: EU/EXP/CHN).

\*The firmware version for Japan is different from USA/AUS, EXP versions. Please check the latest firmware of the Japanese version on the Japan WEB site:

[http://www.yaesu.com/jp/amateur\\_index/product/ft5d/firmware.html](http://www.yaesu.com/jp/amateur_index/product/ft5d/firmware.html)

Please open the Update Instruction Manual and review the information before starting the update firmware.

To download the zip file “**FT5D\_USA\_Firmware\_Update\_2021\_11.zip**” for USA or the zip file “**FT5D\_EXP\_Firmware\_Update\_2021\_11.zip**” for EXP destination versions from YAESU website files section:

<https://www.yaesu.com/indexVS.cfm?cmd=DisplayProducts&ProdCatID=249&encProdID=8FA58F426C671235EA5791EE6814FF48&DivisionID=65&isArchived=0>

### USA Version Package:

**FT5D\_USA\_Firmware\_Update\_2021\_11.zip**

- MAIN(USA) V1.10: [Folder] FT5D\_MAIN\_ver110(USA)
- Instruction Manual: FT5DR\_DE\_MAIN\_SUB\_Firmware\_Ver\_Up\_Manual\_ENG\_2111-A.pdf

### EXP Version Package:

**FT5D\_EXP\_Firmware\_Update\_2021\_11.zip**

- MAIN(EXP) V1.10: [Folder] FT5D\_MAIN\_ver110(EXP)
- Instruction Manual: FT5DR\_DE\_MAIN\_SUB\_Firmware\_Ver\_Up\_Manual\_ENG\_2111-A.pdf

### **CAUTION:**

Please be sure to confirm the model and the version of your transceiver before starting the update. Writing incorrect firmware to the transceiver may cause abnormal operation or failure.

## **FT5DR/FT5DE MAIN Ver. 1.10**

- Supports C4FM digital mode reception in the 28/50MHz band.
- The volume VOL settings for the main unit speaker, and for the Bluetooth® headset when connected, are memorized separately, so that an appropriate volume is provided when switching between the Bluetooth® and the main speaker.
- While operating in the normal VFO or Memory mode with the function menu or setup menu, pressing the PMG key directly shifts to PMG mode.  
(Similarly, after operating the function menu or setup menu from PMG mode, press the V/M key to directly switch to VFO or Memory mode.)
- Set the backlight to always ON when an external power supply is connected.
- Fixed the problem that ALL RESET cannot be performed when a password is set.
- Fixed the problem that "Charging error" is intermittently displayed when charging the main unit.
- Other functional improvements and optimizations have been made.

If you already have Main v1.10 firmware versions, it is not necessary to update the FT5DR/FT5DE again.

We hope this new firmware will increase your enjoyment of the FT5DR/FT5DE. Thank you for choosing Yaesu radios. If you have any problems or questions, please contact Yaesu Amateur Tech Support [amateurtech@yaesu.com](mailto:amateurtech@yaesu.com).
